

Hi everyone, GOOD NEWS WEEK!

Well I guess we all saw the new easing of lockdown regulations and breathed a sigh of relief. It will be so good to visit our friends and loved ones, and just take a trip to a little favourite place and have a picnic, fish and chips by the river – or a beach or something, been so long coming - but of course there will still be masks and hand washing – think that will be the norm for quite some time. However the good news will be worth waiting these last few days for.

I am waiting on news from Casey Council as to when we can resume classes and what the new rules will be. I think we will be required to be fully vaccinated and still wear masks – hopefully not for too much longer and of course our table sanitising and QR code sign in will still apply. But surely it will be so good to at least get together. Class numbers may be limited because of social distancing but I am thinking we can manage it – even if we have to split some of the larger groups over two sessions. Please understand and help us so that we can all be safe and stay healthy.

Thank you all for being so patient during this long long “lock down” – I think we all deserve a medal.

Well done everyone and I look forward to cheery smiles and happy times together before too long.

All the best and cheers to you all,

Helen Bell,
President
